

**SALWAN PUBLIC SCHOOL**  
**RAJENDRA NAGAR, NEW DELHI-110060**  
**DIGITAL CLASSROOMS: INTRODUCTION OF E-TABLETS IN CLASSROOM**

SPS/ / 17

Date: 25.04.2017

Dear Parent,

Information And Communication Technologies (ICT) is an integral part of learning today. Education has effectively evolved from learning on blackboards to learning on interactive whiteboards. The latest Initiative of the school in using technology in classrooms is the introduction of E-Tablets. Your wards class has been selected to participate in the Pilot project of 'Digital Learning Classrooms'. The students will be provided with e-Tablets with digital textbooks for a trial period of one month. Once implemented the benefits the child will draw from the programme are:

- Help students better prepare for a world immersed in technology
- Train the child to access online study resources
- Light school bags (one tablet will store all textbooks)
- Can be updated instantly to get new editions.
- Easy access to Assignments and Notes
- Cost effective as they can be used year after Year.

Regards,

Dr.(Mrs) InduKhetarpal  
Principal
