

SALWANIANS STRIVE TO ACHIEVE SUSTAINABLE DEVELOPMENT GOALS

A plethora of activities based on Sustainable Development Goals were conducted for the students from Nursery to Class XII in order to generate awareness on environmental issues and to encourage young learners to adopt a sustainable lifestyle. Students participated enthusiastically in class-wise activities such as poster making, slogan writing, skit presentation, nukkad natak, nature walk, environment campaign, poem recitation and story building based on environmental protection. Special assemblies were conducted to sensitize students about global warming. The initiative was undertaken to apprise the students of the Sustainable Development Goals established by the UN in 2015 to combat climate change and its impacts. Emphasis was laid on promoting the use of renewable sources of energy and reducing consumerism for ecological restoration.

WE ARE THE HARBINGERS OF CHANGE!
LEAVING SUSTAINABLE FOOTPRINTS...

“We are the first generation to feel the effect of climate change and the last generation who can do something about it.”

- Barack Obama
