Dear Parent

Pranam

It is our perception, and a correct conviction, that every child is an artist and given an opportunity to explore the hidden talent, the child becomes the master of the chosen field. Taking this forward, the school plans to facilitate training of students in various forms of Performing Arts, both Indian and foreign, through masters of the Art. This endeavour will enable your child to discover their passion, explore his/her talent and make a choice for a lifelong skill, in a supportive set up.

Performing Arts offer a unique avenue for your child to also discover the beauty and purpose of life. It gives the child an insight, which is not discovered or ventured into in the routine curriculum. Whether it's dancing, singing or playing an instrument, these activities aren't just about skill-building; these aid to develop qualities like creativity, expression, and resilience – skills that are crucial in navigating today's challenging world and create greater harmony. It is said that music, singing and dance bring the world together and remove disharmony.

The school has approached only those organisations that are reputed and have a proven record as the best in their chosen field. These organisations have trained and dedicated faculty who will meticulously work closely with the children and help them excel and hone their skills.

The fields of music and dance being offered under the scheme are:
